Such legal action may result in monetary damages and/or disciplinary action including rescinding exam results and denying or revoking certification.
8. I understand that for each application submitted, DANB will process the appropriate payment. If I fail to show up for an exam for which I have applied, and there is no documented DANB-accepted emergency, and I failed to comply with DANB cancellation policies, I am still obligated to pay the full exam fee. I further understand that taking the exam and then revoking payment constitutes the wrongful use of DANB products and services and I may be subjected to legal action. I am obligated to pay for the exam whether I pass or fail. I agree not to dispute the exam fee. Exam results will be rescinded if the exam fee is not paid in full.

Background Information Policy and Questions

Background Information Policy

DANB national exam applications contain three background information questions (BIQs) that exam candidates are required to answer. Failure to answer the questions will result in the exam application being returned as incomplete. Candidates must submit documentation, with his/her completed exam application, related to each affirmative response. DANB will review the documentation and make a case-by-case determination, in consultation with legal counsel, as to the candidate's eligibility to test, earn certification or recertify. Dependent on specific disclosures made, DANB reserves the right to bring individuals for review under *DANB's Disciplinary Policy & Procedures*.

Background Information Questions

BIQ 1 Is your answer “yes” to either of the following?

- In the last five years, have you been convicted of, or pled guilty or no contest to, a felony or any crime punishable by confinement in a state or federal prison for any length of time?
- Are you currently serving a sentence of confinement, home detention, parole, probation, or other court-ordered supervision, or are you subject to a reporting requirement (e.g., sex offender or violent offender registry) in connection with **any** felony conviction received in your lifetime?

It is not necessary to report misdemeanor convictions.

If you are uncertain whether a conviction was for a felony or a misdemeanor, you must mark “yes.”

BIQ 2 Have you ever been the subject of any of the following?

- Suspension, revocation, or voluntary surrender of your dental assisting license, registration, or other state-recognized dental assisting credential?
- Suspension, revocation, or voluntary surrender of a license, registration, or other state-recognized credential in any profession?
- Loss of authorization to practice dental assisting or any profession as an employee of the federal government?
- Loss of authorization to practice dental assisting or any profession in a jurisdiction that does not require registration, licensure, or other recognized employment credential?
- Disciplinary action by a professional regulatory board, certifying or examination agency, or other professional body?
- Investigation by or dismissal from an educational institution for cheating or any other ethical violation?

BIQ 3 Have you ever been declared mentally incompetent by a court of law?

Documentation Required If a Candidate Answers “Yes”

Documentation must be submitted with the completed exam application.

Step 1 — Personal Statement

The candidate must attach a signed and dated personal statement describing the circumstances surrounding each occurrence, the offense or reason for the conviction or disciplinary action, the date of the adverse action, the penalties imposed, and the dates when penalties for each occurrence were or will be completed.

Step 2 — Supporting Documentation

The candidate must also provide **official** documentation related to each occurrence, including but not limited to:

- BIQ 1** For felony convictions, a true copy of every police report, judgment of conviction, sentencing order and termination of probation order, if applicable, and any other documentation deemed necessary by DANB. Any person being held on criminal charges or serving a sentence of confinement (e.g., prison, jail, home detention, any equivalent mode of confinement), for any offense, must be fully released from confinement before applying for and/or taking a DANB exam.
- BIQ 2** For regulatory, credentialing or educational disciplinary action, a true and official statement from the disciplining agency or educational institution describing the offense and penalties imposed (e.g., consent order, decision) and, if applicable, providing evidence of completion or expiration of all penalties, including reinstatement of license or credential.
- BIQ 3** For a court declaration of mental incompetence, true court copies of all relevant court orders and related documents.

About DANB Exams

About DANB Exams

DANB uses computer adaptive testing (CAT) to present questions to candidates. Each candidate starts with a question at or around the passing standard. Each time the candidate answers a question correctly, the next question will be slightly harder. If the answer is incorrect, the next question will be slightly easier. Each candidate is presented with the same percentage of questions from each sub-content area on the exam blueprint. The candidate's score is based on the difficulty of the questions that are presented, and the average candidate, regardless of passing or failing the exam, will get a little over 50 percent of the questions correct and a little under 50 percent of the questions incorrect. This method of testing more accurately pinpoints a candidate's ability level. All exam items are pretested before becoming operational to ensure the items are performing properly and are correctly calibrated.

How to Prepare to Take a DANB Exam

Step 1: Review the exam blueprint

Download the exam blueprint from www.danb.org. DANB's exam blueprints outline every topic found on a particular exam. Review each topic and identify the areas in which you need further study.

Step 2: Choose your study materials

Obtain study materials. Options include:

- Suggested reference list (see page 8)
- Textbooks and other reference materials
- The DALE Foundation's review courses and study aids (the DALE Foundation is the only official DANB affiliate)

Step 3: Make a study plan

Reading and re-reading is usually not enough.

- Re-review previously studied topics every few days
- Assist in understanding by tying what you learn to real-life experiences
- Understand the rationale for correct performance and not just how to perform a procedure
- Make a practice test and use flashcards
