Eligibility Pathways for Expanded Functions Dental Assistants in Oregon

EFDA certification is regulated by the Oregon Board of Dentistry (OBD). The Dental Assisting National Board, Inc. (DANB), under contract with the OBD, administers the certification program, a service that includes providing information regarding exams and certifications, distributing application materials, and issuing certificates.

An Oregon EFDA certificate allows a dental assistant to perform the following duties: polish the coronal surfaces of teeth with a brush or rubber cup as part of oral prophylaxis to remove stains if a licensed dentist or dental hygienist has determined the teeth are free of calculus; remove temporary crowns for final cementation and clean teeth for final cementation; preliminarily fit crowns to check contacts or to adjust occlusion outside the mouth; place temporary restorative material (i.e., zinc oxide eugenol-based material) in teeth providing that the patient is checked by a dentist before and after the procedure is performed; place and remove matrix retainers for alloy and composite restorations; polish amalgam and composite restorations with a slow-speed handpiece; remove excess supragingival cement from crowns, bridges, bands or brackets with hand instruments providing that the patient is checked by a dentist after the procedure is performed; perform all aspects of teeth whitening procedures; fabricate temporary crowns and temporarily cement the temporary crown provided that the cemented crown is examined and approved by the dentist prior to the patient being released; and under general supervision, when the dentist is not available and the patient is in discomfort, an EFDA may recement a temporary crown or recement a permanent crown with temporary cement for a patient of record provided that the patient is rescheduled for follow-up care by a licensed dentist as soon as is reasonably appropriate.

To perform expanded functions in Oregon under the supervision of a licensed dentist, a dental assistant must earn status as an Expanded Function Dental Assistant (EFDA). To qualify, one must:
