Eligibility Pathways for Expanded Functions Dental Assistants in Oregon

EFDA certification is regulated by the Oregon Board of Dentistry (OBD). The Dental Assisting National Board, Inc. (DANB), under contract with the OBD, administers the certification program, a service that includes providing information regarding exams and certifications, distributing application materials, and issuing certificates.

An Oregon EFDA certificate allows a dental assistant to perform the following duties: polish the coronal surfaces of teeth with a brush or rubber cup as part of oral prophylaxis to remove stains if a licensed dentist or dental hygienist has determined the teeth are free of calculus; remove temporary crowns for final cementation and clean teeth for final cementation; preliminarily fit crowns to check contacts or to adjust occlusion outside the mouth; place temporary restorative material (i.e., zinc oxide eugenol-based material) in teeth providing that the patient is checked by a dentist before and after the procedure is performed; place and remove matrix retainers for alloy and composite restorations; polish amalgam and composite restorations with a slow-speed handpiece; remove excess supragingival cement from crowns, bridges, bands or brackets with hand instruments providing that the patient is checked by a dentist after the procedure is performed; perform all aspects of teeth whitening procedures; fabricate temporary crowns and temporarily cement the temporary crown provided that the cemented crown is examined and approved by the dentist prior to the patient being released; and under general supervision, when the dentist is not available and the patient is in discomfort, an EFDA may recement a temporary crown or recement a permanent crown with temporary cement for a patient of record provided that the patient is rescheduled for follow-up care by a licensed dentist as soon as is reasonably appropriate.

To perform expanded functions in Oregon under the supervision of a licensed dentist, a dental assistant must earn status as an Expanded Function Dental Assistant (EFDA). To qualify, one must:

Apply for Oregon EFDA certificate from DANB after completing all of the above requirements.

About DANB Exams

How to Prepare to Take an Exam

Step 1: Review the exam outline

The outlines identify every topic found on a particular exam. Review each topic and identify the areas in which you need further study.

Step 2: Choose your study materials

Obtain study materials. Options include:

- Suggested reference list (see p. 5)
- Textbooks and other reference materials
- The DALE Foundation's review courses and study aides (the DALE Foundation is the only official DANB affiliate)

Step 3: Make a study plan

Reading and re-reading is usually not enough.

- Review previously studied topics every few days
- Assist in understanding by tying what you learn to real-life experiences
- Understand the rationale for correct performance and not just how to perform a procedure
- Make a practice test and use flashcards

I authorize DANB to make whatever inquiries and investigations it deems necessary to verify my credentials or professional standing.
2. I hereby release DANB, its directors, officers, examiners and agents from any and all liability arising out of or in connection with any action or omission by any of them in connection with this application, the certification process, any exam given by DANB, any scoring relating thereto, the failure to issue me a certificate, or any demand for forfeiture or return of such certificate, and I agree to indemnify DANB and said persons and hold them harmless from any lawsuit, complaint, claim, loss, damage, cost or expense, including attorneys' fees, arising out of or in connection with said certification activities.
