DANB administers the IM exam as a linear exam. Each candidate is presented with the same percentage of questions from each domain on the exam outline. The candidate’s overall performance on the exam determines the candidate’s pass/fail status.
IM Exam Blueprint

DANB exams are created using the exam blueprint, which is annually reviewed by subject matter experts. The blueprint is developed through a rigorous content validation study (CVS) and validated by DANB certificants using a job analysis survey. A CVS is conducted every five to seven years to ensure the blueprint is consistent with current clinical practices. DANB’s Board of Directors approves all updates to DANB exam blueprints.
